(54) FACSIMILE EQUIPMENT

(57)Abstract:

PROBLEM TO BE SOLVED: To shorten the transmission time of a character original read by an OCR by setting by which one of a character code form and an image information form the character original is to be transmitted corresponding to the character recognition rate of the character original read by an optical character reader.

SOLUTION: A transmission original is set corresponding to the display of 'Please set original' in the case of responding to 'FAX transmission?' displayed by a facsimile and work is ended in the case of not performing FAX transmission. When the read of the original is ended, 'Transmission by character code form?' is displayed and a confirmation rate in the case of performing transmission is displayed. The transmission is performed as it is in the case of performing the transmission corresponding to the instruction and 'Correct unrecognizable character?' is displayed in the case of not performing the transmission. The transmission is performed as it is in the case of not performing correction and unrecognizable characters are corrected in the case of performing the correction. 'Recognition rate is 100%'. 'Transmission?' is displayed when the characters are corrected and the transmission is performed at the time of responding to it.

LEGAL STATUS

[Date of request for examination]

[Date of sending the examiner's decision of rejection]

[Kind of final disposal of application other than the examiner's decision of rejection or application converted registration]

[Date of final disposal for application]

[Patent number]

[Date of registration]

[Number of appeal against examiner's decision of rejection]

[Date of requesting appeal against examiner's decision of rejection]

[Date of extinction of right]

【発明の効果】請求項1の発明は、光学式文字読み取り装置を有するファクシミリ装置において、前記光学式文字読み取り装置で読み取った文字原稿の文字認識結果に応じて該文字原稿を文字コード形式あるいはイメージ形式等のどちらの形で送信するかを判定する送信形式設定手段を有するので、オペレータの問題点を解消することができる。

【図1】本発明が適用されるファクシミリ装置の一実施例を説明するための構成図である。

【図2】本発明によるファクシミリ装置の一実施例を説明するためのフローチャートである。
